

CHRISTIAN LUTHERAN HYMNBOOK SERIES B

Please note that the hymns are based on the scripture readings from Series B of the Lutheran Church-Missouri Synod's historical lectionary Old Testament, Epistle, and Gospel readings). There are a 180 hymns which varies from Series A which has 183 and will be coming out soon, before the beginning of the new church year, that being December of 2017. Lord, willing, I hope to have Series C done before 2018. The book is designed in such a way that a Pastor, his secretary, or a music leader, can make copies from it and insert it into bulletins, or, on just plain sheets of paper for either the choir or the congregation. Please note that it is possible for you to find an error in rhythm. In that event, please feel free to either add or subtract a word so the rhythm is maintained. The purpose of this book is to actually sing, worship, praise, and give thanks to Him by using His own Word as lyrics. These hymns are perfect for sermon hymns (that text which the Pastor is preaching on). Of course a few other words are added to make rhythm and rhyme of the hymn possible. That is why you may see a few rather strange words or parts of a word used in order to keep the hymn in proper (Godly) order! At no time does this author wish to make light of His Word or cause offense to any of His flock. I pray that all words added be to His glory and not the authors. Finally, it is my hope/prayer that those using this hymnal, that is, the believer, will be encouraged in their faith, and for the unbeliever's God will use these His and my words to draw that person unto Himself, that he/she believes. His will be done and to His glory, Amen.
